MAD PRIDE!
by Ruth Ruth

July 14th is not only Bastille Day, the French national holiday which commemorates citizenship rights, but is now the day marked for Mad Pride, a time to recognize the citizenship rights of psychiatric survivors, consumers and mad folks, a burgeoning counter culture group in urban centres around the world.

The success of the great civil rights movements of the 1950’s and 60’s empowered marginalized people everywhere to want to bring the same advance to their community. On a global scale since the 70’s marginalized psychiatric survivors, treatment consumers and all mad people have been organizing to gain respect. The current recovery and user-led philosophy which runs through modern community mental health services is a significant achievement of this movement. So are survivor/consumer run businesses and a considerable chunk of urban community arts. In the year 2000, a collection of these groups formed a support coalition and designated July 14th as Mad Pride Day. The City of Toronto has officially proclaimed Mad Pride Day since 2003.

But the concept of madness goes back as far as civilization itself. The biblical Babylonian King Nebuchadnezzar was referred to as mad. Centuries later so was Margery Kemp, a mother of fourteen children who in 1496, because she could not write, dictated her experience with madness to a scribe (ancient note taker).

American Tirzah Shedd was also known to be mad and in 1865 she challenged her committal to Jacksonville Insane Asylum with written testimony. Also called mad was Elizabeth Packard, a minister’s wife, who in the late 1800’s after unjustly being committed to an asylum by her husband, formed a support group with like-minded others called The Anti-Insane Asylum Society.

But through these centuries, there has often been a gap between stereotypes about madness and the reality of mental and emotional trauma people have endured. One historical work that does record the real and experienced lives of mad people is Geoffrey Reaume’s Remembrance of Patients Past, Patient Life at the Toronto Hospital for the Insane 1870 -1940 (Oxford Press, 2000).
So then, it is a fitting irony that Mad Pride Week, an annual festival of arts, education and heritage, that recognizes the everyday lives of mad people, begin at the site of the Patient Built Wall, some of which is still standing on the grounds of CAMH (Centre for Addiction and Mental Health), formerly the Toronto Hospital for the Insane, in Toronto, Canada. The public is invited to attend this event, called The Patient Built Wall Tour, on July 13, and all of Mad Pride Week 2009 events. For a complete listing of Mad Pride Week see www.madpridetoronto.blogspot.com.

Mad Pride: A Movement for Social Change
By Lilith Finkler

This month, psychiatric consumer / survivors around the world celebrate Mad Pride. What began in downtown Toronto in 1993, is now an international phenomenon. I am proud to belong to the original group of psychiatric survivor organizers.

Mad Pride is certainly a public celebration. It is a time to share our talents, inspire creativity and co-operation. Mad Pride is also a time to link psychiatric survivor activism to other movements for social justice. For example, Mad Pride Day originated in Parkdale, partly as a response to the lack of affordable housing and crowded, hazardous living conditions in many boarding homes. The keynote speaker that first year was Ron Wilson, a boarding home tenant who testified against his operator at a public hearing. Ultimately, the boarding home was closed and Ron moved to a better place. Psychiatric survivors certainly have good reasons to consider affordable housing.

People living in poverty also demand improved living conditions. Affordable and accessible housing is a key social determinant of health. Some psychiatric survivors may need medication to stay healthy. BUT medication is not enough. We need quality housing too. When psychiatric survivors march along Queen Street and demand clean places to live, we can invite poor people’s groups and tenants’ associations to march with us.

Mad Pride has helped psychiatric survivors to feel strong and united. Working together in groups means we can accomplish things we might not be able to do alone. Many of us used to rely on psychiatrists or social workers. Now, we know we can also rely on one another. Experiences of solidarity reinforce the idea that psychiatric survivors constitute a community, a group with a common identity and set of values. As we become more solid in who we are, we can reach out to members of other communities so we can be stronger still.

For example, we can work with Black organizations to address community policing, since both our communities have suffered in the criminal justice system. We can reach out to members of the blind community since some psychiatric survivors have blurred vision and need an alternative to print communication. We can build alliances with immigrant advocates. Some applicants are declared medically inadmissible to Canada. Similarly, if our psychiatric history is known, we may be refused entry into other countries we wish to visit.

The women’s movement has long demanded that women have the right to control our own bodies. Psychiatric survivors can mention this feminist demand when we oppose forced medical treatment. Members of First Nations and physically disabled persons share a history of institutionalization in residential schools. These groups are likely to be sympathetic to the psychiatric survivor demand for control over our own living spaces. The psychiatric survivor movement, in turn, can support First Nations demands for cultural and political
We can be allies to gays and lesbians as their Pride Day offered a model upon which we could build when organizing the first Psychiatric Survivor Pride Day.

There are many links between the psychiatric survivor liberation movement and other movements for social change. When we march for justice for ourselves, we can link our experiences to those of others who are also oppressed, put down by society. As we become effective allies, we can build a stronger, more cohesive community committed to the liberation of all people.

60 mg Phenobarbital tablets recalled. Some of the 60 mg tablets may contain considerably more of the drug than the label states and for this reason may put patients at risk of accidental overdose. An overdose may be life threatening. Phenobarbital is used to treat seizure disorders, anxiety and sleep-related disorders. ("Pms - Phenobarbital (60 mg) being recalled in Canada due to risk of accidental overdose". Warning - 2009-105, June 26, 2009 - For immediate release). Consumers can contact Health Canada's public enquiries line toll free at 1-866-225-0709. Visit http://www.hc-sc.gc.ca/ahc-asc/media/advisories-avis/_2009/2009_105-eng.php for details.

Sexually transmitted HCV (Hepatitis C virus) more common now. Researchers examined information about 226 HIV positive men from Australia, France, Germany, Netherlands and the United Kingdom. They found that starting in 1996 there was an increase in the rate of transmission of HCV into the sexual networks of gay and bisexual men. In the past HCV infection was spread chiefly through sharing needles or receiving contaminated blood. Researchers speculate that the increase is linked to changes in behavior, especially the increase in unprotected anal sex that has resulted from the introduction of HAART (highly active antiretroviral therapy) and from the practice of unprotected sex among HIV positive men, rather than a change in the HCV virus itself. Women engaging in high risk practices are also at risk. ("Study confirms international outbreak of sexually transmitted hep C". CATIE-News: Bite-sized HIV/AIDS news bulletins. **Oxycodone causes 941 deaths in Florida.** The Florida Medical Examiners Commission reports that the drug oxycodone caused the most deaths, followed by benzodiazepines, methadone, cocaine, ethyl alcohol, morphine and hydrocodone. 2008 saw an increase in oxycodone and heroin deaths while methadone and cocaine deaths decreased from 2007's rate. (*Painkiller tops drug deaths* By Stephen Thompson, spthompson@tampatrib.com, The Tampa Tribune, Published: July 1, 2009.) Visit http://www2.tbo.com/content/2009/jul/01/na-painkiller-tops-drug-deaths/.

**U.S. FDA mental health warning for Chantix and Zyban.** On July 1 the FDA announced that Chantix (varenicline) and Zyban (bupropion), both prescribed as smoking cessation drugs, must contain a warning that they pose a risk of behavioral change, depression, hostility and suicidal thoughts. (*FDA: Boxed Warning on Serious Mental Health Events to be required for Chantix and Zyban*, FDA NEWS RELEASE - For Immediate Release: July 1, 2009, Consumer Inquiries: 888-INFO-FDA.) Visit http://www.fda.gov/NewsEvents/Newsroom/PressAnnouncements/ucm170100.htm for details.

**1 in 25 deaths worldwide related to alcohol consumption.** The UK Press Association reports that one tenth of European deaths and one in 25 deaths worldwide can be attributed to alcohol. Europeans drink twice the world average and eastern Mediterraneans drink the least. 6.3 % of men's compared to 1.8 % of women's deaths are alcohol-related. Alcohol also accounts for 5% of years lived with disabilities around the world. The study, published in *The Lancet* medical journal, is authored by researchers from CAMH (The Centre for Addiction and Mental Health). (*Alcohol causes tenth of deaths*, Jun 25, 2009, Copyright © 2009 The Press Association. All rights reserved.) View complete article at http://www.google.com/hostednews/ukpress/article/ALeqM5iJXwi5eb91I1wO43hzWkVm__eYZQ.

In a related story, NEWS1130 reports that Canadian consumption of alcohol exceeds the global average by a couple of drinks a week per person. (*Canadians consume more alcohol than the global average - That means nine drinks a week*, Andrea Macpherson VANCOUVER (NEWS1130) | Friday, June 26th, 2009 12:00 pm.) **Increased number of children prescribed antipsychotics in BC.** A University of British Columbia study reveals a tenfold increase in children 14 and under taking atypical antipsychotics including risperidone (Risperdal), quetiapine (Seroquel) and olanzapine (Zyprexa) over the past decade. These antipsychotics have not been approved by Health Canada for children. Colin Dormuth, the epidemiologist who reviewed the decade’s prescriptions stated "It’s definitely weighted towards 11-, 12-, 13-, 14-year-olds, but we do see instances as young as one year of age." (*Antipsychotic drug use spiraling in kids, research says* Last Updated: Thursday, July 2, 2009 | 6:53 PM ET CBC News) Visit http://www.cbc.ca/health/story/2009/07/02/health-drugs.html for full story.

**10 percent of children bullied by other children.** A recent US study published in the *Journal of Adolescent Health*, reveals that 10 percent of youth are bullied through text messaging and related electronic media. Girls are more often the targets of the bullying than boys. In-person bullying such as spreading rumours, social ostracization and verbal and physical intimidation are still much more common forms of bullying. The study surveyed 7,182 youth (grades 6 - 10). Ronald Iannotti, an author of the study, commented that parental care and support can help to prevent youth from becoming bullies. (*Study: One in 10 kids bullied Online - Study found bullying remains much more common in person*,

Requested items are: a karaoke machine, a laptop computer, a dresser, a crockpot, and a card table.

C/S Online

http://www.schizophrenia.com/

Here is how they describe themselves: “Schizophrenia.com is a leading schizophrenia-focused, non-profit web community. We have a specific focus on providing information, support and education to people who suffer from schizophrenia, as well as to family members and caregivers of people with schizophrenia (including mental health professionals). We currently have over 400,000 visitors per month. Visitors to the site generate over 1,000,000 page views, and 3,000,000 hits per month on the main web site, and a further 900,000+ page views per month in the discussion areas.” For computer savvy people with schizophrenia this could be a really good peer support resource. With that much traffic you’re bound to find peer support you can relate to.

Computer Help Available
Free over the phone or online technical support for survivors. Help with repairs, upgrades, installations, and networking. Coaching in MS Office, PhotoShop, etc. Virus and spyware scans and clean-ups. Contact Martha at gandier47@hotmail.com or call the C/S Info Centre at 416-595-2882 and we’ll put you in touch.

COMMUNITY ANNOUNCEMENTS

Inclusion of an announcement is not an endorsement of the views of any organization or individual.

Dear Subscribers,
We want to create a list of support groups for consumer/survivors and our readers are our best resource for accessing this information. If you know about a group please let us know so we can pass it on. Thank you for your help.

Call for Participants
The Central LHIN (Local Health Integration Network) Consumer/Survivor Network and the Krasman Centre invite you to an important meeting. Changes are happening within the health care system. We have an opportunity to contribute to and influence the Ministry of Health’s 10 year Strategy on Mental Health & Addictions.

Krasman Centre
10121 Yonge Street
Richmond Hill
Friday, July 31 at 2 pm – 4 pm

Call Alex at 905-780-0491 to let us know you are attending. Light refreshments will be served. Free

NOTHING ABOUT US, WITHOUT US!

The Reva Gerstein Legacy Fund

The Reva Gerstein Legacy Fund is seeking submissions for this year. This is the third year of the fund and we are seeking to support projects that are run by and for psychiatric survivors that reflect Reva Gerstein’s interest in education, research and other projects that celebrate the independent spirit of the survivor community.

Last year we were able to fund the Psychiatric Survivors Archives, Toronto (PSAT), Stand up for Mental Health (Coping with mental illness through the vehicle of stand up comedy), web design for pet care information, PhACS – a running group for Survivors, advocacy courses to enhance one survivor’s advocacy skills and a small grant to help with the MAD Pride festivities this summer. A little over $10,000.00 was given to these wonderful projects.

We are looking to receive proposals by September 1, 2009 so that we can meet with the groups in early September and distribute the money early in the Fall. Proposals should have a budget of no more then $4,000.

Applications will be considered that are from any agency or group that is run by and for Psychiatric Survivors or from any individual Psychiatric Survivors.

An initial application should consist of a one-page outline of the project, which should include who will benefit from the project and an expected budget and timeline. It could also include how the project will be monitored.

Applications should be mailed to: The Reva Gerstein Legacy Fund
100 Charles Street East
Toronto ON M4Y 1V3

or emailed to legary@gersteincentre.org.

Application Deadline: September 1, 2009.

Lung Health and Smoking Cessation

Friday, July 31, 2009
1 pm - 3 pm
Toronto Western Hospital - Auditorium - 2nd Floor - West Wing
399 Bathurst Street (just north of Dundas)

FREE Health Talk. To register, please contact evangeline.roldan@uhn.on.ca or 416-603-5800 x 6475.

For more information visit http://www.uhnpatienteducation.ca.
Special One Day Workshop
“COPING THROUGH HUMOUR”
Learn how to utilize humour to promote mental health.

Workshop Leader: Michael D. Cole (For five years Michael has been the Toronto Director of the Stand Up For Mental Health Comedy Program).

At this special one day workshop, you will find out how to use the therapeutic benefits of humour to help you deal with mental health issues and difficult life situations.

Wednesday, July 22
10 am - 5 pm
CMHA (Canadian Mental Health Association/Red Cross Building in the Training Room)
1859 Leslie St. (entrance is on Coldwater St. one block north of York Mills)
Take York Mills bus east from Yonge St.
NO REGISTRATION REQUIRED – Just Show Up
FREE

Job Postings

Please note that we have a bulletin board at the Centre where we post jobs that we don't receive in time to publish in the Bulletin. It may be worthwhile for jobseekers to drop by periodically and check the board.

Employment Matters

George Brown College is hosting an
ASSISTANT COOK EXTENDED TRAINING (ACET) Information Session

Wednesday, July 22
St James Campus, 200 King St East
Room 560E
1:00 PM

Please call 416-415-5000 x 6790 or email mailto:auged@georgebrownc.ca to confirm your attendance.

Attendance to the information session is NOT mandatory.

Augmented Education Programs
ST James Campus, 200 King St. East, Room 534E
416-415-5000 x 6790
Email: auged@georgebrown.ca
Please note that anything at a city-run building, like City Hall, Metro Hall, etc. will not happen if the strike is still on. The same goes for getting to Centre Island as the ferries are also run by the same union. If in doubt, call first.

July 31 at 1 pm – 3 pm. **Lung Health and Smoking Cessation Health Talk**. Toronto Western Hospital. Auditorium. 2nd Floor. West Wing. 399 Bathurst Street (just north of Dundas). To register, please call 416-603-5800 x 6475 or email evangeline.roldan@uhn.on.ca or visit http://www.uhnpatienteducation.ca. **FREE**

WRITErs/Books
**CALL FOR SUBMISSIONS.** Our Voice/Notre Voix – Viewpoints of the Psychiatrized since 1987/Points de Vues des Psychiatrisés depuis 1987 is calling for submissions for their 50th issue. The theme is “Dare to Imagine: From Lunatics to Citizens”. They are accepting submissions of poems, opinions and articles and the call is open to all stakeholders. Honorariums provided to all who have their work published. Deadline is September 30 at 4 pm. For details email ovnvletters@nb.aibn.com. Visit www.ourvoice-notrevoix.com to learn more about the organization. **FREE**

To subscribe to the *Bulletin* or *The Wellness and Recovery Newsletter*, call the Consumer/Survivor Information Resource Centre of Toronto at 416-595-2882 or email us at csinfo@camh.net. The Bulletin is published twice a month on the 1st and 15th. The Wellness and Recovery Newsletter is a joint production of Community Resource Connections of Toronto (CRCT) and the C/S Info Centre. It is published 4 times a year. Both are posted on the CRCT website at www.crct.org, and both publications are free to receive. We encourage people to subscribe by email if they can so we have the resources available to mail to those who do not have access to a computer or the Internet.
