Centre Updates

Spring has finally sprung and there is a lot to do in the city... Maybe you feel like checking out a street festival, seeing art, or beating your drum at Woodbine Park. It’s National Aboriginal History Month, so there are all kinds of events, from BBQs to book readings, and exhibitions happening around town. Finally, if you are into getting involved in the consumer/survivor community, the Empowerment Council’s AGM and Board Elections are coming up.

If you’re feeling more like staying in, it’s a great time to dig in the garden, find a sunny spot and curl up with a good book, or settle in for a chat with a friend.

As always, if you’re looking for info, job postings, or want to tell us about an event, feel free to drop by the Centre, give us a call, or send us an email. Changes are happening in the Mall at CAMH and the Out of This World Café will be opening its new location in the old cafeteria on June 3rd. So if you’re in the neighbourhood, come and see what’s cooking at one of several consumer/survivor initiatives in the city.

Our next workshop is on July 29th and will be an information session about the Consumer/Survivor Timebank of Toronto. To learn more about the timebank, email c.s.timebanking@gmail.com or visit www.cstb.timebanks.org.

Attention ALL Agencies: WE NEED YOU(r Brochures)!

We are looking for your brochures, pamphlets, booklets or flyers as well as information about any specific services you currently offer. We also display informational materials on specific mental health and related topics and can always use fact sheets. We welcome materials that reflect the diversity of Toronto and the people who visit our Centre. Please send your stuff to: C/S Info Centre, c/o CAMH, The Mall, 1001 Queen Street West, Toronto ON, M6J 1H4.

Shopping and Banking online

Businesses love to have online customers, for a lot of reasons. It is convenient for them and for you. It's so convenient for you that you will probably spend more money than you would if you had to go to the store to buy your items. And once a website is set up that allows access to your credit card or bank account, it's quite simple for a business to handle multiple transactions at once and from all over the world. It’s a win-win situation.

The big question is of course, how to protect sensitive information like account numbers and passwords. There have been incidents of theft in the past, so big companies now invest a lot of money on security that will ensure their customers’ information is safe.

The long established companies like Amazon and eBay have earned the trust of online shoppers. I’m using Amazon as an example, because it offers a number of security features to maintain its position of trust.

If you go to the Amazon site, notice the URL (address): http://www.amazon.com/. Http stands for ‘Hypertext Transfer Protocol’. If you want to buy something you need to have an account with Amazon. Click on ‘Register with Amazon’ and you will see the URL change to https://www.amazon.com.

Https stands for ‘Hypertext Transfer Protocol Secure.’ It is a secure form of internet communication and you should always see ‘HTTPS’ when carrying out any transaction. HTTPS security goes both ways, it covers the information you send to the website as well as the information the website sends to you. Always look for the HTTPS letters when you need to send private information over the internet. Banks and other financial institutions may have added layers of security, and it’s always good to ask about this before you start making transactions online.

eBay can link to your bank account via ‘PayPal’, a third party application that will allow you to pay for your purchases online. PayPal has its own insurance, as well as its own level of security. And eBay uses a feedback system, so you can see if anyone else has had problems with a particular seller. Sellers who do the most business on eBay protect their feedback status carefully...one seller tried to sue a buyer for leaving negative feedback! It’s a great way for buyers to decide who to buy from, and for sellers to advertise their reliability.

Craigslist -http://toronto.en.craigslist.ca/ and Kijiji - http://toronto.kijiji.ca/cityoftoronto/ are completely different systems. They list contact information about individuals who have items to sell...the rest is up to you. You contact the person and make all your arrangements. This is Kijiji’s list of precautions...https://help.kijiji.net/ca/knowledgebase.php?article=26. There is no protection for either buyer or seller; both Craigslist and Kijiji are really just online garage sales.

Last but not least: invest in a good antivirus and antispyware application. Especially if you’re doing a lot of online shopping, and double-especially if you’re using Internet Explorer as a web browser!

And another last little comment: Online shopping is wonderful for those of us with social anxiety. Christmas shopping used to be something I dreaded starting on December 26!

Martha Gandier offers fellow consumer/survivors Free over-the-phone or remote online computer advice and support with repairs, upgrades, installations, networking, virus and spy ware scans and clean-ups, coaching in MS Office, Photoshop, etc. She can be reached at gandier47@hotmail.com or if your computer is in really bad shape, and you can’t even email, call the C/S Info Centre at 416 595-2882 and we’ll email Martha for you and then she’ll call you.

Computer Trivia: 1939

Hewlett-Packard is Founded. David Packard and Bill Hewlett found Hewlett-Packard in a Palo Alto, California garage. Their first product was the HP 200A Audio Oscillator, which rapidly becomes a popular piece of test equipment for engineers. Walt Disney Pictures ordered eight of the 200B model to use as sound effects generators for the 1940 movie “Fantasia.” www.computerhistory.org.
NCR: Not Criminally Responsible

A Film Review by Roy Bonadonna

*Not Criminally Responsible* is the latest film by Emmy-Award winning filmmaker John Kastner. In it he tackles head-on a controversial topic that is very much in the news these days, namely, the intersection of mental health and the criminal justice system.

The film tells the story of Sean Clifton, a resident of Cornwall, Ontario, who suffers from severe OCD and schizophrenia. In 1999, in a delusional frenzy, Sean repeatedly stabbed Julie Bouvier outside a Wal-Mart because a voice told him to “kill the prettiest woman he could find.” Fortunately, she survived. Sean was arrested, charged and taken into custody. Eventually he was found NCR by the court, which means that although he was guilty of committing the crime, he was not at that time capable of appreciating the nature or the wrongness of his actions because of mental illness. He was sent to the Brockville Forensic Hospital for detention and rehabilitation.

The film then jumps forward 12 years, and Sean, who has steadily improved, is now seeking a conditional discharge from the Review Board, while Julie Bouvier and her family have spent the last 12 years agonizing over the senselessness of what occurred and why.

Kastner’s film succeeds in two ways. One, he does a great job of accurately showing us both sides of this difficult issue. We see clearly how those found NCR, like Sean, have the right to gradual Freedom and rehabilitation. In addition, however, we are also brought face to face with the victims of these crimes and their need for safety and for healing.

The second, and most compelling, way this film succeeds is that it movingly shows us the power of forgiveness. When we see innocent victims of senseless crimes forgive their penitent attackers we are overwhelmed with powerful, encouraging emotions and the candle of hope in our hearts burns a little bit brighter.

NCR recently premiered at Hot Docs in Toronto and will be shown next season on CBC’s DocZone.

*Roy Bonadonna is a graduate of York University and is currently a volunteer with the Empowerment Council. His background is in communications and in community work.*

Community Announcements

**Breaking out of Huronia:** The Judy Richardson Collection of art by Huronia Regional Centre residents
Reception: Saturday, June 1, 2:00-4:00 pm
Exhibition June 1 – July 26, 2013; closed August.
Reopens September 3 – October 25 at 999 Dovercourt Road.
Creative Spirit Gallery is honoured to host artists whose works are in the exhibition and to reunite them with their art. “Breaking out of Huronia” is a special exhibition to mark 21 years promoting art made by people on the lowest socio-economic rung whose long-term medical disabilities often leave them voiceless and without access to means for self-expression. Thelma Wheatley, author of *And Neither Have I Wings to Fly, Labeled and Locked Up In Canada’s Oldest Institution*, will be the keynote speaker. Ontario’s oldest institution for people with developmental disabilities, The Orillia Asylum for Idiots, opened in 1876, was renamed the Huronia Regional Centre in 1974, and finally closed in 1992. At its peak it had 2,600 residents.

Call for Participants: Mad Pride Panel on Mad Spirituality
I am organizing a panel discussion for Mad Pride Toronto on the topic of Mad Spirituality that will take place Thursday, July 11, 2013 from 3:30-4:30pm. Do you want to speak to other Mad folks about spiritual understandings of your madness or the role of spiritual practices on your self-care, healing, recovery, and wellness? Perhaps you want to recall experiences of exclusion from religious/spiritual environments due to madness or from Mad communities due to religious/spiritual beliefs so that we can create more welcoming and inclusive spaces? Maybe you want to describe how you provide spiritual care through peer support? How does spirituality impact your understanding and celebration of Mad Pride? If you’re interested in speaking/participating/chatting about this further, email Alisa at banana.nut.crackers@gmail.com or leave a voice-mail at 647-931-7563.

Call for Research Participants: Yoga Study for Social Anxiety Disorder
We are conducting a clinical research study examining whether yoga will be helpful in reducing symptoms of social anxiety. This is an 8-week study and patients will be assigned to either bi-weekly yoga sessions for 8 weeks or to a wait-list condition. Those assigned to wait-list will be offered the yoga intervention once they have completed the study. The target enrolment is 60 subjects, aged 18-65. There is an optional genetics component to this study. The eligibility criteria will be reviewed with each participant. This component is entirely optional and will not affect the participants’ inclusion in the yoga study. If you would like more information please contact Julia at 416 535-8501 x 36854 or email julia.cheng@camh.ca.
